Career objective :

To obtain a position in web-based projects management where I can apply my solid skills in development and management to international projects.

Education :

2005 Fourth year of five at IG2I, *Institut de Génie Informatique et Industriel* (i.e. Institute of Computer Technology and Industrial Engineering) based in Lens, northern France.
Three first years with congratulations of the jury.

2001 *Baccalauréat* (eq. High School Diploma) with Maths, Physics and Biology specialisation.
Passed with honors.

Professional experience :

Assistant-engineer, DSDSYSTEM (La Madeleine, France), 2004-05, 8-month placement
Internet projects management ; Translation and commercialisation of a software created in New Zealand.
Setting up the partnership was my first experience of international relations between firms.

Web developer, Kiwa Productions (Hawera, New Zealand), 2004, 3-month placement
Internet software coding with PHP and Flash. Improvement of a sports tournament management software (www.tournamentmaker.co.nz) which enabled Kiwa Productions to get new clients for this product.

IT Consultant, for Kiwa Productions (Hawera, New Zealand), since 2004

Subcontractor in Project Management and Internet Programming. Drafting of estimate, quoting and coding. Creation of the www.mindoverbody.co.nz website, maintenance of www.tournamentmaker.co.nz.

In charge of technical issues for a project consecutive to a 'Project Management' lesson, 2003

First experience in Project Management for the study and the development of commercial and financial flower shop software. The software has been successfully used for two years.

Web developer, Artégos (Roubaix, France), 2003, 3-month placement

Internet software coding with ASP. Setting-up Roland-Garros 2003 online shop, 1 million pages seen in 2 weeks. I discovered the ICT domain and applied the school assets as a member of a project team.

Assembly Operator, FOG / FACOM (Myennes, France), 2002, 1-month placement

Assembly of hydraulic ramps for automobile workshops. First professional experience, I had there an outline of the problems of company management.

Professional skills :

Languages : - French (mother tongue)
- English, very good (TOEIC: 950, Bulats: 91%, ALTE Level: 5, CEF: C2)
